Watch Out!

Looking for more practical jokes? Tim Nyberg is back again with **The Practical Joker's Handbook: The Sequel** (Andrews McMeel Publishing, LLC, \$12.99, April 2010) a follow up to the wildly popular *The Practical Joker's Handbook*.

This latest collection of all-new practical jokes is just as entertaining and diabolical as the first. After sifting through the dangerous, mean-spirited, and potentially litigious jokes submitted by fans to Nyberg's Web site, **The Practical Joker's Handbook: The Sequel** is a sly collection of new jokes to play at home, work, school, or anywhere. A sampling of new pranks include:

- **I Only Like the Chocolate**

Leave a dish of plain peanuts sitting out on a coffee table. Offer them to your next visitor. After they've eaten a few, explain that you really don't like peanuts—you just suck the chocolate off them.

- **Congratulations Are Out of Order**

Decorate the front of a friend's house/apartment door with streamers and a big sign saying something unexpected and/or inappropriate, such as: "It's a girl!" or "It's a boy!" or "Just married!"

- **Sorry, Bad Aim**

Carry a little filled squirt gun with you into the restroom. Stand at the urinal and dispense a couple of good squirts onto your neighbor's shoe. "Oops! Sorry. Bad aim!"

Based on the Nyberg philosophy that "It's only a good practical joke if both parties (eventually) find humor in the prank," this new companion guide will give all practical jokers something to smile about.
